

Liftech

LIFTECH CONSULTANTS INC.

Therasense Phase Two Alameda, California

Liftech designed the structure for a 64,000 square foot office, manufacturing, and warehouse facility. The building has steel concentric braced frames, steel roof and floor framing, a metal deck with concrete floor, and a metal deck roof. The foundation system is conventional spread footings. The lobby features a two story open space, and the architectural design exposes the braced frames.
