

## 8000 t Floating Crane Design Review

ZPMC supplied an 8000 t double boom shear leg floating crane to Samsung Heavy Industries Company Limited. The crane has 8 main hooks, each with a 1000 t capacity. The crane is rated for 8000 t at 82 m from boom heel.

Client:  
ZPMC  
Shanghai, China

Liftech assisted ZPMC with developing the overall concept and layout, and designing various crane structural components.
